

## DOSO BOX WIRAND FIBRE DOSAGE CONTROL EQUIPMENT

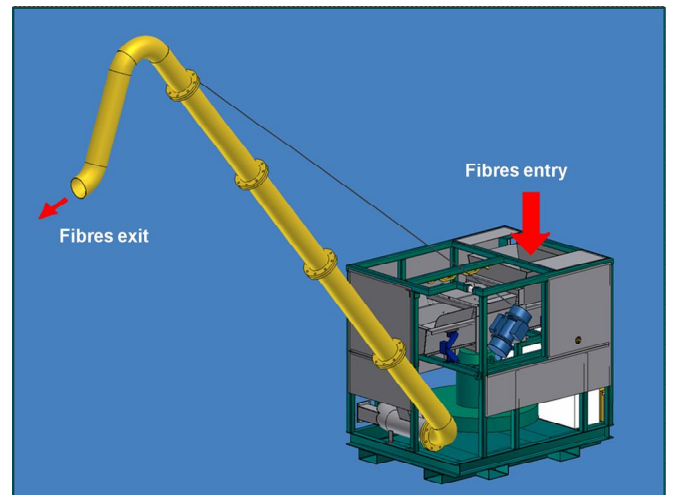

Maccaferri's DOSO BOX is a machine used to deliver the Wirand® fibres into the concrete mix. DOSO BOX unravels the fibres and transports them via a pneumatic and vibrating transporting mechanism into the concrete mixer.

Using DOSO BOX makes the loading of Wirand® fibres into the concrete quicker, more accurate and safer.

Wirand® Fibres are added by emptying them from their boxes into the hopper. The DOSO BOX unravels the fibres by vibrating them which creates a uniform flow into the output tube which is placed directly into the concrete mixer.

DOSO BOX is the same size as two freight pallets of fibres so it can be easily transported with the material order.

The machine can be offloaded by forklift truck or by crane using the integral lifting eyes.

TECHNICAL DETAILS	
<b>Performances</b>	
Maximum hourly production	50/80 kg/min
Allowed box capacity	15/25 kg
<b>Details</b>	
Voltage	380 V
Frequency	50 Hz
Power	10 Kw
<b>Dimensions</b>	
Mass	1200 kg
Dimensions for transport	1600 x 1200 x 1490 (h) mm
